- [Report Heading](#)
- [Graphs and pie chart](#)
- [Overview and General Education Requirements](#)
- [General Education Summary](#)
- [Major Requirements and Major GPA](#)
- [Upper Division Writing Requirement](#)
- [Courses Not Specifically Applied to Above Requirements \(if applicable\)](#)
- [Summary of Units](#)

The Report Heading shows important information such as major, degree catalog year, and anticipated graduation date.

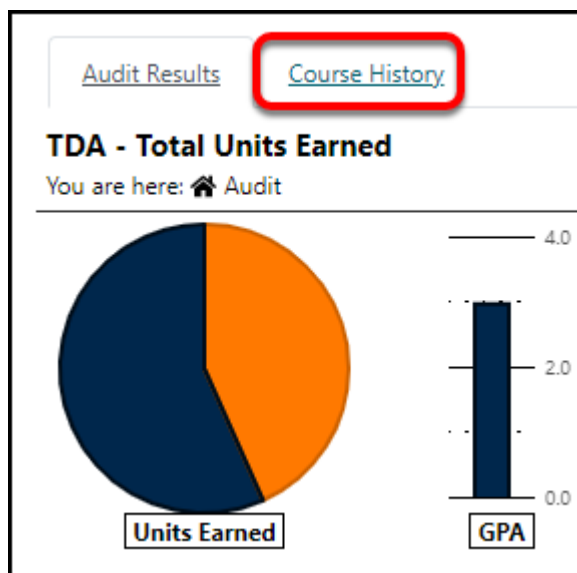

Graphs and pie chart

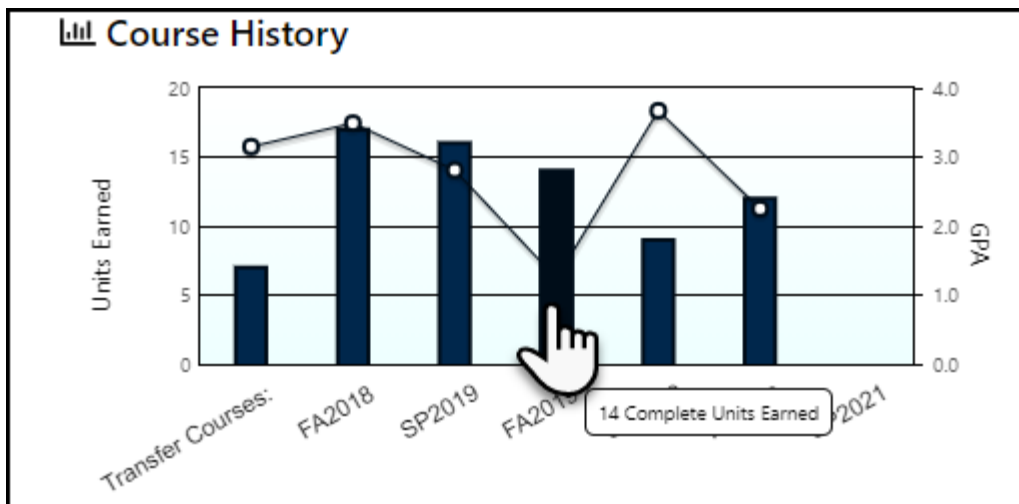

These charts and graphs are a visual representation of a student's progress towards degree requirements.

Course History graph and table

Click on the Course History tab to view a graph and table of courses taken.

Course History bar graph

The Course History bar graph shows the number of units that were completed in each semester along with a line indicating the GPA for each semester.

If you hover your mouse over the bar graph, the exact number represented in the graph will display.

If you click on a semester, the Course History table below the graph will filter to show just that one semester's courses.

Course History table

Click on green columns to filter course list below by term or use the 'filter by' drop down menu below. If you wish to return to the entire course list, just reset the 'filter by' settings to their 'generic' settings (usually the title of the filter such as 'Year' and 'Term')

Filter by: Grade (4) FA2019

Term	Course Term	Transfer Course	Equivalent/CSUF Course	Units	Grade	Title

The Report Heading shows important information such as major, degree catalog year, and anticipated graduation date.

Graphs and pie chart

The "TDA Total Units Earned" pie chart and the "GPA" bar graph (figures on the left) indicate the units and GPA of the grad student's Study Plan courses. The "Summary of Units" bar (figure on the right) indicates the number of graded units that a student earned while enrolled in the current program. Consequently, the "TDA- Total Unites

Earned" pie chart and the "Summary of Units" bar graph may indicate different numbers.

Course History graph and table

Click on the Course History tab to view a graph and table of courses taken.

Course History bar graph

The Course History bar graph shows the number of units that were completed in each semester along with a line indicating the GPA for each semester.

If you hover your mouse over the bar graph, the exact number represented in the graph will display.

If you click on a semester, the Course History table below the graph will filter to show just that one semester's courses.

There are symbols next to each requirement indicating whether the requirement is complete, planned, in progress, or unfulfilled (the Legend is at the bottom of the TDA). When a requirement has been met, the course that met the requirement is listed along with the grade received. Where the requirement has not been met, a list of eligible courses appears.

Click on an eligible course to learn more about it.

 Note that the planned courses will not appear unless the student has used [Titan Degree Planner](#) to plan their courses AND the Show Planned Courses option was selected when the TDA was run.
